Integrated, accurate data, helping local authorities to identify and support vulnerable individuals and families, now and in the future

We know the challenges of responding to the requirements of the Troubled Families programme, conforming to the Data Maturity Model and looking ahead to future Government initiatives:

- ▷ Data is typically too fragmented, incomplete or inconsistent to safely merge together
- ▷ It's hard to see the big picture and evaluate what's working well and what isn't
- ▷ Immediate and extended family members are often hard to identify
- ▷ Resources are stretched and targets are missed

We can help. Successfully adopted by a number of UK local authorities, our Think Family solution overcomes these issues, transforming programmes and supporting earlier intervention quickly and cost-effectively.

Our Think Family offering is a powerful Data Hub and Portal that links data from any number of sources to provide an accurate, holistic and profiled view of each family group. Benefits include:

- ▷ Family-overview and drill-down screens that show you the full picture
- ▷ You control the rules to validate and merge people's data
- ▷ You set and manage your own criteria
- ▷ Automatic data profiling to identify families in need
- ▷ Maximised PBR claims bringing increased income
- ▷ Improved data sharing and collaborative working
- ▷ Automatically prepared Government returns, evidenced by a full chronology of events and outcomes
